

Assemblaggio Totem e piantana *Assembling Totem and stand*

La Linea Sail riunisce varie tipologie nelle quali la superficie espositiva in metacrilato diventa protagonista, creando strutture leggere ed eleganti.

The Linea Sail collects together various typologies in which the expositive surface in methacrylate becomes the protagonist, creating light and elegant structures.

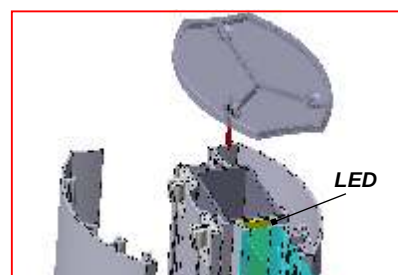

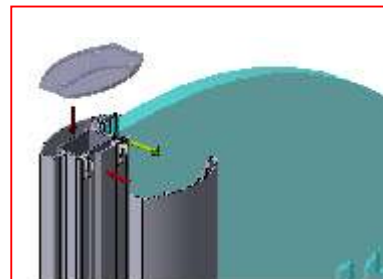

La lastra in metacrilato trasparente viene avvitata al profilo LT.S1, in parte animato internamente da un profilo scatolare 50x30. Tutta la struttura LT.S, costituisce il montante delle varie tipologie.

The transparent sheet in methacrylate is screwed to the profile LT.S1 internally partly animate by a box profile 50 x 30. The whole structure LT.S, figures the rod of the various typologies.

La struttura LT.S è costituita da tre profili (LT.S1/LT.S2/LT.S3). LT.S1 e LT.S2 sono agganciati per mezzo di traversini, mentre LT.S3 ha la funzione di completamento dove non è presente la superficie espositiva.

The structure LT.S consists of three profiles (LT.S1/LT.S2/LT.S3). LT.S1 and LT.S2 are hooked by sliding small plates, while LT.S3 has the function of completion where the expositive surface isn't present.

Se si realizza la grafica incisa, è possibile una illuminazione a LED del pannello in metacrilato

If you realized the engraved graphic, it's possible an illumination with LED of the panel in methacrylate.
