

Assemblaggio targhe a parete *Assembling wall plates*

Impianto segnaletico a superficie piana nei formati da 150, 210, 300, 420, 600, 900 mm assemblate con lamiera di alluminio sagomata e terminali in ABS con relativi tappi in ABS LF. Il fissaggio alla parete avviene mediante profilo in alluminio estruso LA.C2.

Sign system in flat surface composed by plates in the sizes of 150, 210, 300, 420, 600, 900 mm. assembled with shaped aluminium sheet and terminal in ABS with relatives caps in ABS LF. Fixing to the wall using profile in extrude aluminium LA.C2

TARGA MURALE

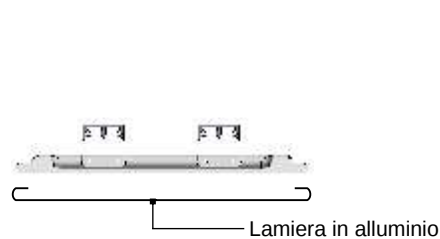

Le targhe preassemblate si innestano a scatto, per mezzo delle pinze esistenti sul retro dei terminali in ABS, alle nervature dei profili in alluminio estruso LA.C2 già tassellato alla parete, e completate con il fissaggio dei tappi in ABS LA.T03. La grafica viene realizzata in pellicola vinilica adesiva.

The plates preassembles are grafted jerky, through the existing pliers on the back of the terminals in ABS, to the nervous systems of the profiles in extruded aluminium LA.C2 already reinforce to the wall, and you complete with the fixing of the corks in ABS LA.T03. You graphics is realized in adhesive vinyl film.

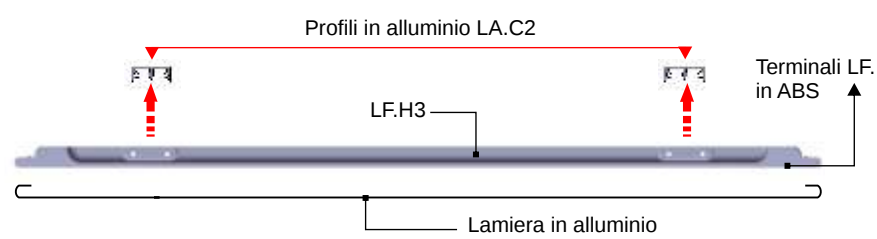

62

Altezza massima di ogni singola targa: mm. 600
Max high for single plate: mm. 600

I formati da 300 a 900 mm prevedono l'utilizzo di due profili LA.C2.

The format from 210 and 900 mm. foresees the use of two profiles LA.C2

I formati da 150 e 210 mm prevedono l'utilizzo di un solo profilo LA.C2

The format from 150 mm. foresees the use of one profile LA.C2.
