

Assemblaggio bacheca per interni Assembling showcases for indoor

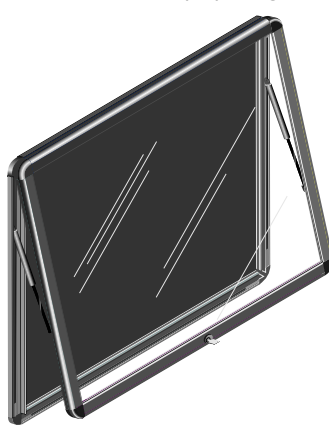

Impianto espositivo composto da profili in alluminio estruso con sagoma arrotondata LE.01 ed LE.02, angolari in ABS, superficie di fondo (lamiera e/o profili in alluminio estruso millerighe LM.PM60 ed LM.PM100,) cerniere in alluminio estruso e serratura. Protezione frontale in metacrilato trasparente da 4 mm.

Expositive system composed of LE.01 and LE.02 extruded aluminium profiles with round shape, angulars in ABS, back surface (sheet and/or LM.PM60 and LM.PM100 extruded aluminium multifluted profiles), hinges in extruded aluminium and lock. Frontal protection in transparent methacrylate of 4 mm.

Bacheca con fondo millerighe

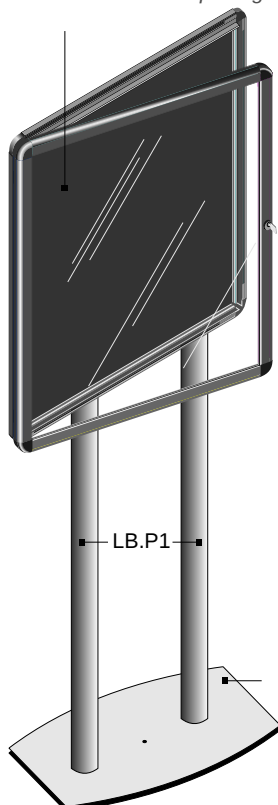

Le bacheche della Linea Europa si realizzano assemblando i profili in alluminio estruso a sagoma arrotondata LE.01 ed LE.02 uniti rispettivamente dagli angolari in ABS LE.06 ed LE.07. Le cerniere LE.03 sono in alluminio estruso. Le bacheche sono dotate di serratura a chiave e possono realizzarsi con la classica apertura a libro o con apertura a ribalta, applicando le molle a gas LE.04. Il fondo è in lamiera d'acciaio verniciato, con bottoni magnetici per fissare gli avvisi, e può essere integrabile o sostituibile con i profili in alluminio millerighe LM.PM60 ed LM.PM100. L'anta frontale è comprensiva di metacrilato trasparente di protezione.

86

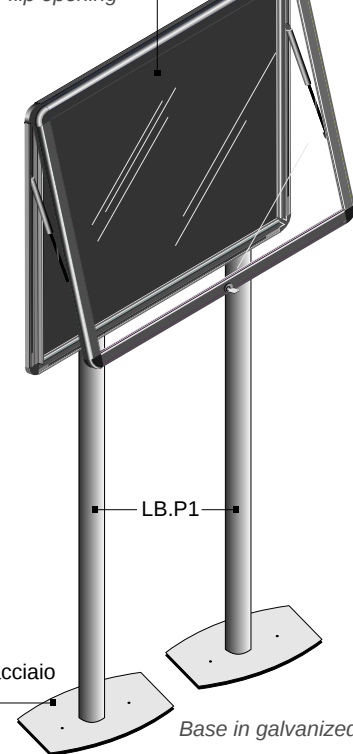

The showcases from the Linea Europa are realized assembling the LE.01 and LE.02 extruded aluminium profiles with round shape linked with the LE.06 and LE.07 angulars in ABS. The LE.03 hinges are in extruded aluminium. The showcases are enrowed with lockset and can be realized with the classic book opening or with flip opening, using the LE.04 gas springs. The back is realized in painted steel sheet, with magnets for the advertisements' fixing and can be integrated or removed with the LM.PM60 and LM.PM100 extruded aluminium multifluted profiles. The frontal door is built up of transparent methacrylate protection.
